

## Author index of Journal of Ophthalmology issues in 2021

### Clinical Ophthalmology

**Alnoelaty Almasri MA, Stebnev VC.** Development of new methods of selection of multifocal intraocular correction in cataract surgery. *J.ophthalmol.(Ukraine).* 2021;6:21-24. <http://doi.org/10.31288/oftalmolzh202162124>

**Bakhritdinova FA, Kangilbaeva GE, Nabieva IF, Jurabekova AZ.** Prediction of the progression of diabetic retinopathy based on hemodynamic data. *J.ophthalmol.(Ukraine).* 2021;4:26-31. <http://doi.org/10.31288/oftalmolzh202142631>

**Bakhritdinova FA, Maksudova ZR, Matkarimov AK.** Analysis of the structure of eye diseases in the population of the South Aral Sea region. *J.ophthalmol.(Ukraine).* 2021;1:46-9. <http://doi.org/10.31288/oftalmolzh202114649>

**Boichuk IM, Tarak Alui.** Accommodative convergence-accommodation ratio and fusional capacity in patients with constant and intermittent exotropia. *J.ophthalmol.(Ukraine).* 2021;4:39-42. <http://doi.org/10.31288/oftalmolzh202143942>

**Boichuk IM, Alui Tarak.** Stereopsis before and after surgical treatment for constant versus intermittent exotropia. *J.ophthalmol.(Ukraine).* 2021;3:23-27. <http://doi.org/10.31288/oftalmolzh202132327>

**Boichuk IM, Wael Badri.** EEG rhythms and retinal morphometric parameters before and after conventional therapy with adjunctive neuroprotective agent for refractive amblyopia and strabismic amblyopia. *J.ophthalmol.(Ukraine).* 2021;5:56-63. <http://doi.org/10.31288/oftalmolzh202155663>

**Bondarchuk OD, Dmytrenko IV, Didyk ND, Isniuk AS.** Endonasal orbitotomy as a first treatment for posttraumatic intraorbital hemorrhages in patients with frontal basilar trauma. *J.ophthalmol.(Ukraine).* 2021;4:53-6. <http://doi.org/10.31288/oftalmolzh202145356>

**Buldygina YuV, Zamotaieva HA, Terekhova GM, Stepura NM, Klochkova VM, Fed'ko TV.** Role of cytokines, IL1- $\beta$  and IL-10, in the development of endocrine ophthalmopathy in Graves' disease. *J.ophthalmol.(Ukraine).* 2021;4:48-52. <http://doi.org/10.31288/oftalmolzh202144852>

**Deepthi Slesser N, Nasrin Y, Krishna Prasad P.** Visual outcome following cataract surgery in children of 2 months to 16 years age: a prospective study in a tertiary eye care center. *J.ophthalmol.(Ukraine).* 2021;6:8-15. <http://doi.org/10.31288/oftalmolzh20216815>

**Dmitriev SK, Peretiagin OA, Lazar YuM, Tatarina YuA.** Relationships between target intraocular pressure and central corneal thickness in stabilized and non-stabilized glaucoma patients. *J.ophthalmol.(Ukraine).* 2021;2:10-15. <http://doi.org/10.31288/oftalmolzh202121015>

**Dzhamalova ShA, Yangieva NR, Kuryazova ZKh.** Conjunctival cytology in patients treated for ocular infectious diseases. *J.ophthalmol.(Ukraine).* 2021;2:3-9. <http://doi.org/10.31288/oftalmolzh2021239>

**Fedirko VO, Iegorova KS, Lisianyi OM, Naboichenko AG, Onishchenko PM, Tsiurupa DM, Iegorov MV, Shust VV, Lisianyi AO.** Longitudinal changes in neuroophthalmological abnormalities in patients who underwent surgery for skull-base epidermoid cysts. *J.ophthalmol.(Ukraine).* 2021;6:31-40. <http://doi.org/10.31288/oftalmolzh202163140>

**Garg P, Raj P, Rathore S.** Comparision of retinal nerve fibre layer defects in glaucomatous and normal fellow eyes of glaucomatous patients: an OCT based study. *J.ophthalmol.(Ukraine).* 2021;1:50-4. <http://doi.org/10.31288/oftalmolzh202115054>

**Gudzenko KA, Mogilevskyy SIu.** Predictors of the risk of developing diabetic retinopathy in type 2 diabetes mellitus and primary open-angle glaucoma in the course of a comorbid condition. *J.ophthalmol.(Ukraine).* 2021;3:3-9. <http://doi.org/10.31288/oftalmolzh2021339>

**Hanyuk VM, Petrenko OV, Natrus LV, Prusak OI.** Morphological, functional and structural changes in red blood cells of type 2 diabetes patients with proliferative diabetic retinopathy and different diabetes duration. *J.ophthalmol.(Ukraine).* 2021;5:21-7. <http://doi.org/10.31288/oftalmolzh202152127>

**Iakymenko SA, Amjad Albin.** Optimizing the management of dry eye in corneal and conjunctival cicatrization secondary to severe burns to the eye. *J.ophthalmol.(Ukraine).* 2021;2:36-39. <http://doi.org/10.31288/oftalmolzh202123639>

**Iegorova KS, Chukov AA, Guk MO, Skobska Ole, Zadoianyi LV, Kostiuk MR.** Visual disturbances before and after transnasal endoscopic surgery for craniopharyngiomas. *J.ophthalmol.(Ukraine).* 2021;5:35-40. <http://doi.org/10.31288/oftalmolzh202153540>

**Iegorova KS, Guk MO, Pichkur LD, Zadoianyi LV, Konakh VN.** Longitudinal visual functional recovery in compressive optic neuropathy in patients with primary pituitary microadenoma after endoscopic transnasal surgery. *J.ophthalmol.(Ukraine).* 2021;3:28-33. <http://doi.org/10.31288/oftalmolzh202132833>

**Khramenko NI, Umanets MM, Rozanova ZA, Levytska GV.** Ocular hemodynamics in patients with rhegmatogenous retinal detachment complicated by choroidal detachment. *J.Ophthalmol.(Ukraine)*. 2021;5:28-34. <http://doi.org/10.31288/oftalmolzh202152834>

**Kochina ML, Kaplin IV, Kovtun NM, Maslova NM, Yavorsky OV.** Results of a study on the stress-strain behavior of the cornea in polarized light under conditions of visual work. *J.Ophthalmol.(Ukraine)*. 2021;4:61-6. <http://doi.org/10.31288/oftalmolzh202146166>

**Kolomiyets VA, Kachan OV.** Effect of optical-reflection method of accommodative facility training on meridional acuity in astigmats with amblyopia. *J.Ophthalmol.(Ukraine)*. 2021;5:47-55. <http://doi.org/10.31288/oftalmolzh202154755>

**Kolomiyets VA, Kachan OV, Kolomiyets NV.** Diagnosing meridional amblyopia in astigmats on the basis of assessment of asymmetries in visual acuity and refraction as vector quantities. *J.Ophthalmol.(Ukraine)*. 2021;1:17-23. <http://doi.org/10.31288/oftalmolzh202111723>

**Komakh YA, Borzenok SA, Radygina TV, Kuptsova DG, Petrichuk SV.** Transcription factor NF- $\kappa$ B in the prognosis of outcomes for patients undergoing repeat keratoplasty. *J.Ophthalmol.(Ukraine)*. 2021;2:16-22. <http://doi.org/10.31288/oftalmolzh202121622>

**Lutsenko NS, Krasnozhan OV, Efimenko NF.** Preoperative serum 25-hydroxycholesterol levels in Kherson-region patients with cataract only, cataract plus glaucoma or cataract plus high myopia. *J.Ophthalmol.(Ukraine)*. 2021;3:15-22. <http://doi.org/10.31288/oftalmolzh202131522>

**Lutsenko NS, Kyrylova TS, Rudycheva OA, Isakova OA, Nedilka TV.** OCTA-based retinal microvascular bed assessment at the zones ranging from the fovea to the periphery. *J.Ophthalmol.(Ukraine)*. 2021;1:32-7. <http://doi.org/10.31288/oftalmolzh202113237>

**Lutsenko NS, Rudycheva OA, Isakova OA, Kyrylova TS.** Avoiding errors in the diagnosis of polypoidal choroidal vasculopathy in patients with age-related macular degeneration (Part 1). *J.Ophthalmol.(Ukraine)*. 2021;4:32-38. <http://doi.org/10.31288/oftalmolzh202143238>

**Maliieva OV, Bushueva NM.** Objective criteria of the axial and refractive components in the modified classification for distinguishing among axial, refractive, mixed and combinatory myopias proposed based on the analysis of morphometric parameters of myopic and emmetropic eyes. *J.Ophthalmol.(Ukraine)*. 2021;1:10-6. <http://doi.org/10.31288/oftalmolzh202111016>

**Meisam Akhlaghdoust, Saeid Safari, Poorya Davoodi, Shaghayegh Soleimani, Ehsan Ebadian.** The relation between Eyelid Tumors and Demographic Variable. *J.Ophthalmol.(Ukraine)*. 2021;4:57-60. <http://doi.org/10.31288/oftalmolzh202145760>

**Medvedovska NV.** Results of the study on the impact of eye disease on child quality of life. *J.Ophthalmol.(Ukraine)*. 2021;6:48-51. <http://doi.org/10.31288/oftalmolzh202164851>

**Nabieva IF, Khaidarova FA, Bakhritdinova FA, Oripov OI.** Features of dry eye manifestations in patients with different durations of diabetes mellitus. *J.Ophthalmol.(Ukraine)*. 2021;2:31-35. <http://doi.org/10.31288/oftalmolzh2021231354>

**Novytskyy IIa, Levytska OV.** Hypotensive effect of endotrabeculectomy as a function of the stage of glaucoma and preoperative intraocular pressure in patients with primary open-angle glaucoma. *J.Ophthalmol.(Ukraine)*. 2021;6:41-47. <http://doi.org/10.31288/oftalmolzh202164147>

**Panchenko IuO, Mogilevskyy SIu, Rykov SO, Zhaboiedov DG, Umanets MM, Ziablitzev SV.** Predicting DME recurrence following surgical treatment for diabetic maculopathy in a Ukrainian population of patients with type 2 diabetes mellitus. *J.Ophthalmol.(Ukraine)*. 2021;4:9-18. <http://doi.org/10.31288/oftalmolzh20214918>

**Parkhomets RA.** Efficacy of orthokeratology lenses depending on topography pupil diameter and lens optical zone size. *J.Ophthalmol.(Ukraine)*. 2021;4:67-71. <http://doi.org/10.31288/oftalmolzh202146771>

**Petrenko OV, Dranko MM, Korniienko VV, Hrytsai LV.** Monitoring MMP-2 and MMP-7 levels in traumatic wounds of the ocular adnexa. *J.Ophthalmol.(Ukraine)*. 2021;5:10-3. <http://doi.org/10.31288/oftalmolzh202151013>

**Ponomarchuk VS, Konovalova NV, Khramenko NI.** Clinical experience of the use of Vasavital® in dry age-related macular degeneration and ischemic optic neuropathy. *J.Ophthalmol.(Ukraine)*. 2021;1:38-45. <http://doi.org/10.31288/oftalmolzh202113845>

**Ponomarchuk Vira S, Molchanuk NI, Umanets MM.** Ultrastructural features of epiretinal membranes after intravitreal injection of various doses of afibercept in patients with proliferative diabetic retinopathy. *J.Ophthalmol.(Ukraine)*. 2021;6:25-30. <http://doi.org/10.31288/oftalmolzh202162530>

**Ponomarchuk Vira S, Velychko LM, Umanets MM.** Vitreous VEGF levels among patients with proliferative diabetic retinopathy depending on the general clinical status and ocular status. *J.Ophthalmol.(Ukraine)*. 2021;4:19-25. <http://doi.org/10.31288/oftalmolzh202141925>

**Ponomarchuk Vira S, Vit VV, Umanets MM.** Morphological and ophthalmoscopic features of epiretinal membranes after intravitreal injection of various doses of afibercept in patients with proliferative diabetic retinopathy. *J.Ophthalmol.(Ukraine).* 2021;5:3-9. <http://doi.org/10.31288/oftalmolzh2021539>

**Putienko OO, Pogorilyi DM, Putienko VO.** Outcomes of afibercept for post-vitrectomy vitreous hemorrhage in patients with proliferative diabetic retinopathy. *J.Ophthalmol.(Ukraine).* 2021;3:10-14. <http://doi.org/10.31288/oftalmolzh202131014>

**Soboleva IA, Borysenko YY.** Exploring the features of keratometry readings in premature children. *J.Ophthalmol.(Ukraine).* 2021;6:3-7. <http://doi.org/10.31288/oftalmolzh2021637>

**Sbordone S, Ragucci A, Iaccarino G, Scognamiglio G, Serra L, Gironi Carnevale UA, Lanza M.** Evaluation of corneal distortion characteristics in different eyes using Scheimpflug camera device. *J.Ophthalmol.(Ukraine).* 2021;5:14-20. <http://doi.org/10.31288/oftalmolzh202151420>

**Tuychibayeva DM, Rizayev ZhA, Stozharova NK.** Longitudinal changes in the incidence of glaucoma in Uzbekistan. *J.Ophthalmol.(Ukraine).* 2021;4:43-7. <http://doi.org/10.31288/oftalmolzh202144347>

**Velychko LM, Zborovska OV, Kuryltsiv NB, Bogdanova OV.** Expression of lymphocyte activation markers CD 54 (ICAM-1), CD 5, CD 95 (FAS) and neutrophil activation marker CD15 in the peripheral blood of patients with intermediate uveitis and healthy individuals. *J.Ophthalmol.(Ukraine).* 2021;6:16-20. <http://doi.org/10.31288/oftalmolzh202161620>

**Venger LV, Savko VV, Kovtun OV, Sokolov VM.** Clinical features of the course of optic neuritis as a complication of idiopathic anterior uveitis. *J.Ophthalmol.(Ukraine).* 2021;5:41-6. <http://doi.org/10.31288/oftalmolzh202154146>

**Zhmud TM, Drozhzhyna GI, Demchuk AV.** Cytological features of the bulbar conjunctiva in patients with type 2 diabetes mellitus. *J.Ophthalmol.(Ukraine).* 2021;1:24-31. <http://doi.org/10.31288/oftalmolzh202112431>

**Zavgorodnia NG, Mykhailenko NV, Sarzhevskaya LE, Zavgorodnia TS, Sarzhevskii AS.** Comparing the efficacy of monofocal and multifocal IOLs in phacoemulsification of cataract in eyes with high myopia. *J.Ophthalmol.(Ukraine).* 2021;2:23-30. <http://doi.org/10.31288/oftalmolzh202122330>

**Zavgorodnia NG, Novikova VIu.** Impact of corneal astigmatism on refractive outcomes after phacoemulsification with implantation of a spherical IOL. *J.Ophthalmol.(Ukraine).* 2021;1:3-9. <http://doi.org/10.31288/oftalmolzh2021139>

**Zavoloka OV, Besditko PA, Karliychuk MA.** Changes in bacterial keratitis grade 2 in patients with diabetes mellitus. *J.Ophthalmol.(Ukraine).* 2021;4:3-8. <http://doi.org/10.31288/oftalmolzh2021438>

### Experimental Studies

**Kuzenko OV, Dyomin YA, Kuzenko EV.** Investigating the protective capacity of polymethylsiloxane polyhydrate against chromium (VI)-induced neurotoxicity of the rat optic nerve. *J.Ophthalmol.(Ukraine).* 2021;1:62-69. <http://doi.org/10.31288/oftalmolzh202116269>

**Mykheitseva IM, Bondarenko NV, Kolomiichuk SG, Kuryltsiv NB.** Neopterin level in the anterior segment of the eye in induced uveitis with ocular hypertension when treated by dipeptide carnosine. *J.Ophthalmol.(Ukraine).* 2021;5:64-70. <http://doi.org/10.31288/oftalmolzh202156470>

**Mykheitseva IM, Bondarenko NV, Kolomiichuk SG, Siroshyanenko TI.** Clinical picture of uveitis in the presence of ocular hypertension and improvement in disease course with dipeptide carnosine. *J.Ophthalmol.(Ukraine).* 2021;1:55-61. <http://doi.org/10.31288/oftalmolzh202115561>

**Mykheitseva IM, Molchaniuk NI, Muhammad Abdulhadi, Kolomiichuk SG, Suprun OO.** Ultrastructural changes in the chorioretinal complex of the rat after inducing form-deprivation axial myopia only, diabetic retinopathy only and diabetic retinopathy in the presence of myopia. *J.Ophthalmol.(Ukraine).* 2021;4:72-8. <http://doi.org/10.31288/oftalmolzh202147278>

**Troichenko LF, Drozhzhyna GI, Moloda AL, Dolenko LV.** In vitro investigation of the effect of photosensitizer-mediated 365-nm UV light and 630-670-nm low-energy laser irradiation on the fungal flora, *Candida albicans* and *Fusarium* spp. *J.Ophthalmol.(Ukraine).* 2021;3:34-40. <http://doi.org/10.31288/oftalmolzh202133440>

### Literature Review

**Aznabaev BM, Dibaev TI, Mukhamadeev TR, Vafiev AS, Idrisova GM.** Modern aspects of using of ultrasonic energy in cataract and vitreoretinal surgery. *J.Ophthalmol.(Ukraine).* 2021;3:61-65. <http://doi.org/10.31288/oftalmolzh202136165>

**Gavrilova NA, Tishchenko OIe, Zinov'eva AV.** Results and possible prospects of genetic technology in ophthalmology (literature review). Part I. *J.Ophthalmol.(Ukraine).* 2021;1:70-75. <http://doi.org/10.31288/oftalmolzh202117075>

**Gavrilova NA, Tishchenko OIe, Zinov'eva AV.** Results and possible prospects of genetic technology in ophthalmology (literature review). Part 2. *J.Ophthalmol.(Ukraine).* 2021;2:40-45. <http://doi.org/10.31288/oftalmolzh202124045>

**Korol AR, Rostel VV.** Angiod streaks of the retina. *J.Ophthalmol.(Ukraine).* 2021;2:46-54. <http://doi.org/10.31288/oftalmolzh202124654>

**Kuryltsiv NB, Zborovska OV.** Neopterin, a promising biomarker for the diagnosis of intraocular inflammation. *J.Ophthalmol.(Ukraine).* 2021;3:55-60. <http://doi.org/10.31288/oftalmolzh202135560>

**Lysenko DA, Dzhygaliuk OV, Chereshniuk LI.** Ocular manifestations in patients with hematologic malignancies. *J.Ophthalmol.(Ukraine).* 2021;3:49-54. <http://doi.org/10.31288/oftalmolzh202134954>

**Vasyuta VA, Biloshytsky VV, Korobova OV, Huk AP, Zhdanova VM, Kadzhaia MV.** Neuro-ophthalmological aspect of ocular motor abnormalities. *J.Ophthalmol.(Ukraine).* 2021;6:52-55. <http://doi.org/10.31288/oftalmolzh202165255>

#### Case Reports

**Biloshytsky VV, Vasyuta VA, Biloshytska M.** Ocular manifestations of trigeminal autonomic cephalgias: analysis of cases. *J.Ophthalmol.(Ukraine).* 2021;2:64-68. <http://doi.org/10.31288/oftalmolzh202126468>

**Bobrova NF, Romanova TV, Artiomov OV, Brin MV.** Clinical and morphological characteristic of the case of secondary enucleation of the eye with retinoblastoma. *J.Ophthalmol.(Ukraine).* 2021;4:79-85. <http://doi.org/10.31288/oftalmolzh202147985>

**Bobrova NF, Romanova TV, Shilik AV.** Bilateral morning glory syndrome associated with persistent fetal vasculature syndrome and corpus callosum agenesis: a case report. *J.Ophthalmol.(Ukraine).* 2021;5:71-6. <http://doi.org/10.31288/oftalmolzh202157176>

**Bobrova NF, Romanova TV, Shilik AV.** Complicated uveal cataracts after intrauterine viral infection: a case report. *J.Ophthalmol.(Ukraine).* 2021;3:70-74. <http://doi.org/10.31288/oftalmolzh202137074>

**Bobrova NF, Tronina SA, Ivanytska OV, Velychko LM, Artiomov OV, Bogdanova AV.** Sympathetic uveitis in children: a case report and literature review. *J.Ophthalmol.(Ukraine).* 2021;6:56-63. <http://doi.org/10.31288/oftalmolzh202165663>

**Bobrova NF, Umanets MM, Dembovetskaia AN, Bratishko OYu.** Reconstructive duet in a pole-to-pole surgery for ocular trauma: a pediatric case study. *J.Ophthalmol.(Ukraine).* 2021;2:55-60. <http://doi.org/10.31288/oftalmolzh202125560>

**Garduño-Vieyra Leopoldo, Flores Escobar Bruno.** Lens subluxation in a patient with homocystinuria. Case report. *J.Ophthalmol.(Ukraine).* 2021;4:86-7. <http://doi.org/10.31288/oftalmolzh202148697>

**Ivanytska OV, Terletska OIu, Levytska GV.** A case of OCT evidence of retinal breaks in a myopic patient woman at 38 weeks of gestation. *J.Ophthalmol.(Ukraine).* 2021;6:69-72. <http://doi.org/10.31288/oftalmolzh202166972>

**Krasnovid TA, Sidak-Petretskaia OS, Bondar NI.** Complications secondary to a retained metallic intraocular foreign body. *J.Ophthalmol.(Ukraine).* 2021;2:61-63. <http://doi.org/10.31288/oftalmolzh202126163>

**Krasnovid TA, Svystunov IV, Sidak-Petretskaia OS, Bondar NI.** A case of endophthalmitis associated with gonococcal sepsis. *J.Ophthalmol.(Ukraine).* 2021;1:76-80. <http://doi.org/10.31288/oftalmolzh202117680>

**Maltsev DV.** A case of persistent recurrent herpes zoster ophthalmicus in a patient with primary mannose binding lectin deficiency. *J.Ophthalmol.(Ukraine).* 2021;6:64-68. <http://doi.org/10.31288/oftalmolzh202166468>

**Lutsenko NS, Rudycheva OA, Isakova OA, Kyrylova TS.** Avoiding errors in the diagnosis of polypoidal choroidal vasculopathy in patients with age-related macular degeneration (Part 2: Example cases). *J.Ophthalmol.(Ukraine).* 2021;5:77-83. <http://doi.org/10.31288/oftalmolzh202157783>

**Malachkova NV, Kozlova TIe.** Chloroquine maculopathy in a patient on long-term chloroquine therapy for pulmonary sarcoidosis: a case report. *J.Ophthalmol.(Ukraine).* 2021;5:84-7. <http://doi.org/10.31288/oftalmolzh202158487>

**Oripov OI, Bilalov EN.** COVID-19-associated cavernous sinus thrombosis: a case report. *J.Ophthalmol.(Ukraine).* 2021;2:69-71. <http://doi.org/10.31288/oftalmolzh202126971>

**Sakovych VM, Ustymenko SB, Bereznik LG, Garkava NA.** A case of ocular lesions in a patient with both tick borne borreliosis and toxoplasmosis. *J.Ophthalmol.(Ukraine).* 2021;6:73-76. <http://doi.org/10.31288/oftalmolzh202167376>

**Soboleva IA.** Report on the clinical study of glaucon and original travoptost in patients with primary open angle glaucoma. *J.Ophthalmol.(Ukraine).* 2021;6:77-83. <http://doi.org/10.31288/oftalmolzh202167783>

**Umanets MM, Naumenko VO, Tukilush TM.** Lens nucleus masquerading as recurrent uveal melanoma: a case report. *J.Ophthalmol.(Ukraine).* 2021;3:66-69. <http://doi.org/10.31288/oftalmolzh202136669>

#### History of Ophthalmology

**Bobrova NF.** Professor Zinaida M Skripnichenko, the founder of Ukrainian ocular traumatology. *J.Ophthalmol.(Ukraine).* 2021;3:75-82. <http://doi.org/10.31288/oftalmolzh202137582>

**Syniachenko OV, Iermolaeva VM, Liventsova KV, Verzilov SM, Gerasimenko VV.** Symbols of ophthalmology and famous Ukrainian oculists in the mirror of numismatics. *J.Ophthalmol.(Ukraine)*. 2021;2:72-79. <http://doi.org/10.31288/oftalmolzh202127279>

#### Obituary

In Memoriam: Georgii Ivanovich Zheltov. *J.Ophthalmol.(Ukraine)*. 2021;1:81. <http://doi.org/10.31288/oftalmolzh2021181>

In Memoriam: Tetiana Andriivna Alifanova. *J.Ophthalmol.(Ukraine)*. 2021;3:83-84. <http://doi.org/10.31288/oftalmolzh202138384>

#### Information

Author index of Journal of Ophthalmology issues in 2020 <http://doi.org/10.31288/oftalmolzh202118284>

Book Review: Ocular Burns and Their Treatment monograph, by S.A. Iakymenko, Prof., Dr Sc (Med). *J.Ophthalmol.(Ukraine)*. 2021;5:88 <http://doi.org/10.31288/oftalmolzh2021588>

Book Review: Retinoblastoma: Clinical Features, Diagnosis and Treatment monograph, edited by N.F. Bobrova, Prof., Dr Sc (Med). *J.Ophthalmol.(Ukraine)*. 2021;2:80-81. <http://doi.org/10.31288/oftalmolzh202128081>

Expert Consensus. Management of patients with chronic retinal diseases in the current conditions of the COVID-19 pandemic in the world and in Ukraine. *J.Ophthalmol.(Ukraine)*. 2021;2:82-85. <http://doi.org/10.31288/oftalmolzh202128284>

#### Organization of Eye Care

**Rodina NV, Biron BV, Suslova VO, Kernos AV, Grytsenko OS.** Psychosemantic analysis of eye care workers' percepts of creative abilities. *J.Ophthalmol.(Ukraine)*. 2021;3:41-48. <http://doi.org/10.31288/oftalmolzh202134148>

#### Jubilee

On the 90th birthday of Inna Semnovna Zbandut, literary editor of Oftalmologicheskii Zhurnal. *J.Ophthalmol.(Ukraine)*. 2021;4:88. <http://doi.org/10.31288/oftalmolzh2021488>
